VNA NORTHWEST RECEIVES GRANT FROM WOMEN & GIRLS FUND

BANTAM – VNA Northwest has received a capital goods/equipment grant of \$750.00 from the Women & Girls Fund of The Community Foundation of Northwest Connecticut, Inc.

The funds will allow VNA Northwest to purchase equipment that will support the agency's maternal and child health program in Litchfield County.

“We are very pleased that the Foundation has funded this request,” said VNA Northwest Executive Director Nancy Deming, RN, BSHA. “This equipment will help our nurses to obtain accurate data when they are providing health care services to children and their mothers,” she explained.

VNA Northwest, a Medicare-certified, nonprofit agency, serves all of Litchfield County. It was founded in Cornwall in 1928 and provides home care, hospice and private duty services. For more information, call 860-567-6000 or 1-800-752-0215, or visit www.vnanw.org.

The Executive Committee of the Women & Girls Fund selects grant recipients from among applicants who provide programs and services benefiting women and girls in the 20 northwestern Connecticut towns served by The Community Foundation of Northwest Connecticut.
